

**ABS WEATHERPROOF JUNCTION BOX**

**Features:**

- Made of high quality ABS material for corrosion resistance
- Weighs about a quarter of the metal box with the same dimension for easier handling and installation
- Good insulation performance, impact resistance with IK 08 rating
- Temperature rating: -40°C -+80°C ( continuous); -40°C -+100°C ( short)
- Degree of protection: IP65
- With PU gasket, IP65
- Color: Grey, RAL7032

**Application:**

Ideal for indoor and outdoor applications such as airports, railway stations, petrochemical plant, factories, mining sites, communication and electronics, and other commercial and industrial applications as pushbutton box, terminal box, signal box, relay box, sensor box, etc.
